Need you – Song number 5

Dekodierungs-Übung

Need you

I don't know how long it's been

Since I truly fell in love

Can't describe my feelings

It's amazing

You let me feel completely alive

Day by day I think of you

I guess I'm losing my mind

I need more of you

Don't wanna miss you in my life

Don't wanna wait for another day

Need you – Song number 5

My heart belongs to you
I can't live without you
It's like breathing under water
My angel I need you I feel you
My heart belongs to you
I can't live without you
It's like breathing under water

I'll never let you go
You are my bright sunlight
It shows me the way in dark hours
I'll be watching you
Yes forever I'll do
Baby I'll be there for you
It's true love
I believe in us
I believe in our love
In every moment with you
Every moment with you
Yes it's true
Yes I need you
Yes I need you
